Sesame is one of the oldest oilseeds known to date. Sesame is high in protein and rich in sulfuric amino acids, vitamins B, A, D and lecithin with an oil content of about 50%. Organic and natural flavors and tastes are tailored to the tastes of our customers. Identifying the needs of the community, producing and delivering orders internationally in the best and ultimately the highest level of customer satisfaction are the company's achievements. Araz Group has extensive activity in exporting to Gulf countries CIS, East Asia, South Africa, Turkey and other countries .
